

BRASILIAN VIBES FEATURING ARTHUR LIPNER

*"DELIGHTFUL and UPLIFTING!" - Marketing & Development Director, Levitt Pavillion
Westport CT (2015 show)*

Brasilian Vibes is a new, exciting main stage band. Lipner and Assis released "Brasilian Vibes" in 2010, which was nominated for "Album Of The Year" by the Brazilian Press Awards and this group is an outgrowth of five years of gigs to develop that band concept.

Their positive energy connects with the crowd from the first note until after the performance when they parade a Samba into the audience and jam amongst the dancing crowd! Nanny Assis, Vanessa Falabella and Lipner are charismatic, seasoned front people. With the visual excitement and artistic energy of Lipner's vibes/marimba and the spiritual berimbau/vocals of Carlos Dias, Brasilian Vibes is a totally unique way to present Brazilian music and culture to your community.

The band's improvisational skills allow the group to cross into Jazz and World Music programming as well. Instrumentation in the video demos is 7 pieces, but can be +/- a piece or two as needed. In any format, the concert/crowd dance and jam following the performance will leave your audience with smiles on their faces and a touch of community warmth in their hearts. With their first official Demo just released, and an APAP showcase last year, this band is going places...hopefully to your venue!
